Security Guard Test Preparation Guide Introduction

Security Guard Test Preparation Guide

This test preparation guide is designed to assist security guards in preparing for the ministry's mandatory test. The guide will outline key areas that security guards should be familiar with to ensure they perform their duties in accordance with the Private Security and Investigative Services Act, 2005 (PSISA) and its regulations. The subjects covered align with the ministry's Training Syllabus for Security Guards. Although the guide is meant to assist candidates in preparing for and writing the test, it does not constitute a training manual, and is not a substitute for an in-person training course. At the end of each section of this test preparation guide, you will find links to external resources that may be of further assistance to you. Many of these will bring you to various laws and regulations; it is recommended that you have an overall understanding of these and how they relate to key topics covered in the test. Other links will bring you to existing training materials available to the public. While these materials may contain valuable information, please keep in mind that they were not specifically designed for Ontario's security guard and private investigator training and testing program. About the Test The ministry's tests were developed by subject matter experts (SMEs) in the private security and investigative services industry who worked with the ministry's test development consultant, CASTLE Worldwide Inc. The SMEs developed the test questions using a protocol of writing and review that conforms to the best practices of psychological and test development standards. They comprehensively reviewed and validated each question for appropriateness of the answers and correct answer keys. A panel of SMEs also reviewed and tested the questions and participated in setting the cut scores (pass marks) for the tests. The security guard test is in a written, 60 question, multiple choice format. Test appointments are 2 hours in duration, 75 minutes of which is the allotted test completion time.

\"Security is mostly a superstition. It does not exist in nature, nor do the children of men as a whole experience it. Avoiding danger is no safer in the long run than outright exposure. Life is either a daring adventure, or nothing.\" -Helen Keller Danger is around us all the time. If we feel secure it is because we have chosen to ignore the threat or we feel we have taken steps to reduce the threat. Everything we do, however, is merely a deterrent. There are no guarantees. Threat is always present. It is simply a matter of degree. Threats come in many forms and they all eat away at our fundamental sense of security. Personal and professional security focuses on awareness and preparation. Knowledge is power. Those who are aware and prepared are far more likely to survive sudden, unexpected threats. Luck as they say, is when preparation meets opportunity. What does it take to be a prepared security professional? The terrorist attacks on United States soil on September 11, 2001 illustrate how crucial it is that security be prepared and effective. Those attacks happened because we let our guard down, and the ripple effects have altered our society forever. How great a price must we pay in terms of reduced civil liberties to feel safe now? Such questions may be difficult to define but the fundamental duties and responsibilities of security officers are not. If we expect to overcome threats we must all be on the same page. That is why this book is an important tool in society's ongoing mission to raise the bar in the security profession. Preparation requires training and the journey begins here. - Michael James Jaquish

All states have different regulations, laws, licensing and requirements for security guards. This is especially true regarding the use of deadly force, power of detain, arrest and many other legal aspects of being a security guard. It is the responsibility of the school, instructor, to know the laws relating to security guard activities for the State, County or City in which they train, and for which they train. These laws and regulations are easy to find and free to print because they are of the public domain. While all states may have different laws, almost all states includes in their armed security guard training and educational requirements firearm knowledge and technical skills so the armed security guard can effectively use a firearm in the defense of self and others. This Armed Security Guard Training Manual was developed to meet the most stringent standard. It represents 40 hours of study materials,. It also includes 10 hours legal section that discusses Weapons and Firearms and the use of deadly force. These 10 hours of the curriculum are modeled after Florida laws, which regulates heavily security guard activities. This section constitutes an excellent moral guideline to work from, BUT, it is your responsibility to research and teach the law of your state, county, city, as well as ensure that you take the steps you need to meet your state's licensing requirements, if there are any. Last but not least, this kit, as you see it, is what we use every day to train our pupils at Safe N Secure.

A substantial portion of this book was originally commissioned as a training manual for a local security firm. Very good, practical, solid information here that can benefit all entry level security officers, supervisors, and managers as well as clients considering hiring a uniformed guard patrol service. The manual is presented in its complete form with additional material. This book will describe the various types of domestic entry level security employment available, as well as different types of employer, posts, and duties. You will be given tips on ways to make your job safer and easier, as well as hard earned advice on what types of job to avoid and why. I have over 30 years of experience working with a number of security and investigations firms in three states. I have personally worked dozens of contracts under a variety of circumstances and have observed a lot. These observations, as well as advice for anyone considering choosing a security firm to work for, have been added.
